

LOWER EXTREMITY

Prosthetic Patient Education Clinic

THURSDAY, OCTOBER 13, 2022
8:00 A.M. - 5:00 P.M.

Join us for a one-on-one consultation with our team of lower limb specialists. Get recommendations on improving the fit, comfort, and function of your prosthesis, learn about the latest technology, get to know other amputees in your community, and learn new tips and tricks for navigating through life with your device.

Visit our Patient Education Clinic if you:

- Haven't been evaluated by a prosthetist in a while
- Your prosthesis is causing pain or discomfort
- You think you may never be a successful prosthetic user and no one has been able to help you before

Prosthetics covered:

- Lower-extremity prostheses
- Anatomically-contoured sockets
- Ultra-lightweight construction
- Energy-storage components
- Suction-suspension systems
- Silicone and urethane liners
- Activity-specific prostheses
- Microprocessor knees/ankles/feet

MEET OUR SPECIALIST

WALLIS TOATUA-FARRADAY, CP, LP

Wallis has 40+ yrs of experience and expertise in providing prosthetic care for challenging cases around the world. He has made numerous contributions to the industry and is a leader in research & development.

Don't miss this opportunity to improve your life.

Our clinics are free and open to anyone who has a concern or challenge regarding their prosthesis. All ages and mobility levels welcome. You do not need to be a Hanger Clinic patient to attend.
